# ABOUT US

**Anuvrat Vishva Bharati Society (ANUVIBHA)** an international organization works with the basic goal of creating an ideal society based on human values.

Affiliated to the Civil Society Department of the United Nations, ANUVIBHA has network with ideological organizations and individuals in more than 50 countries.

ANUVIBA is also affiliated with Anuvrat Samitis, a strong organization of the Anuvrat movement, spread across 200 cities/towns in India, with thousands of workers involved in carrying forward this mission.

# OUR VISION

Our vision is to reach out to every individual, enabling him/her to lead a healthy lifestyle, while being mindful of digit use and help him/her to connect with inner-self.

# OUR MISSION

**Assist** individuals worldwide in achieving a healthy balance between their use of technology and their daily lives.

**Promote** a culture of mindfulness and self-care in an increasingly digital world.

**Create** a community of like-minded individuals who can support and encourage each other in their digital detox journey.

**ANUVRAT  
DIGITAL DETOX**

**ADDICTED**

**DETOXED**

**The Digital Revolution:** Technology and the digital revolution have brought about numerous positive changes, including improved communication, access to information, and increased convenience in our lives.

However, as we have become more reliant on these devices, there is a growing concern that we are now overusing them and, in some cases, using them for unproductive or even harmful purposes, what we can say as "The New Age Addiction"

So now, what actually hides under the word **Digital**

**D**isturbance : Excessive digital device usage disrupts your daily life routines impacting your focus, irrespective of one's age or gender.

**I**Q reduction : Over-reliance on digital technology, especially AI, may contribute to cognitive decline viz. memory loss, Alzheimer in old age

**G**ap : Excessive usage of digital devices creates communication gap between individuals and their families or loved ones leading to distrust, conflicts and reducing Emotional Quotient (EQ)

**I**llness : Prolonged screen time can lead to various health issues, such as eye strain (physical) and sleep disturbances (mental)

**T**oxicity : Excessive consumption of negative news, abusive OTT content, misuse of Dark Web have a toxic effect impacting mental health.

**A**ddiction : Real time/excessive status updates, online gaming, online gambling, etc can cause digital addiction and excessive dependency on smart devices and the internet

**L**oneliness : Being a victim of online gambling, cyber bullying and cyber-frauds, reducing real life engagement and excessive virtual activity intensifies loneliness leading to Isolation and Depression

# The Solution lies in **Detox**

## **D**igital Fasting

- Prohibiting usage of phone during - driving, eating, before sleeping, 12 midnight to 7 am and when around loved ones etc.

## **E**ngage Positively

- Engaging yourself in healthy habits like reading, sports, meditation, Me and family time, exercise, practicing mindfulness & gratitude.

## **T**rain your Brain

- Consciously taking steps to use technology wisely and mindfully.

## **O**riginality

- It is about self-discovery & expressing your true self from within, rather than being influenced by external digital content like mindless scrolling, watching reels, & web series.

## **X**- Factor

- Explore your special qualities or the Unique Selling Point (USPs) that differentiate you from others & focus on improving them.

## **What is Anuvrat Digital Detox?**

- Small (*anu*), Vows(*vrat*) towards Digital Detox.
- Digital detoxing means taking a break from using an electronic device or being online for a scheduled amount of time.
- Stepping away from technology allows you to be more present with yourself and your loved ones.
- It may also relieve stress, improve sleep, and deepen your relationship with family and friends.
